**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We need more independent providers to have choices in selecting ISP and promote competition.
The owners of the physical network must allow access to other providers at low rates.

We (the users) need providers that sells only a bandwidth+latency SLA and don't act on the content.
The FCC must facilitate new providers to setup their own network.

I chose a local provider because it is not messing up with the content and the price is stable/doesn't
change .
